How to Assemble

KEYSTACK LITE

3.82"

1 Disassemble KeyStack Lite by loosening and removing the 2 screws.

2 Place the plate with the attached metal sockets on a level surface.

3 Stack your keys onto the posts. You can use the included spacers.

4 Place the Key Ring on the opposite side of the stacked keys.

5 Tighten the screws with a small coin, screwdriver, or washer.

6 Leave the screws loose enough so the keys can swivel.

Enjoy!

Polybag Insert Card Proof • Scale 1:1

03.30.21

Custom Card Instructions:

- "Designed in Canada by PowerStick.com. Made in China." text **must** stay on all printed cards.
- Please embed any photos and outline any text used in the design of the card.
- The red guide is for the bleed. Any art on the card that will reach the edge of the paper must be extended to the red bleed line.
- When creating a custom card, it is recommended to customize the front & leave the instructions on the rest of the pages to benefit the end user.
