

STICKER-REC925

- Safe Area
- Artwork Bleed
- Cut Line
- Fold/Crease Line

PMS COLORS: We print all artwork in process color (CMYK). All PMS colors will be converted and matched to their process color equivalents. To ensure your artwork prints as you expect, we request PMS values for all colors. If PMS values are not supplied we will print the artwork as it was sent in. We are not able to match PMS colors that are in gradients.

Application Instructions

1. Make sure to thoroughly clean the area that you plan on placing your sticker.
2. Before applying sticker make sure the area is completely dry. Remove the backing for the sticker, then start by putting one side of the sticker on the object. Slowly move a stiff card (ex. credit card), over the sticker applying even pressure until totally adhered. This will help eliminate air bubbles when applying. It should be ok to partially remove the sticker if you put it on crooked. The sticker can be removed entirely and reapplied, however, it will become less adherent the more you repeat this process.

Dashed Line For Imprint Area Only, Will Not Print.
